

Promotion of Income-Generating Activities:

- Committed to relieving poverty by promoting various income-generating activities among communities.
- Encourages diversification of economic activities and entrepreneurship for community resilience.

Fundraising and Resource Mobilization:

- Involves raising and mobilizing funds and other resources to support the organization's objectives.
- Ensures the availability of necessary resources for the implementation and sustainability of various projects.

**Strengthening Micro-Finance Systems:**

- Aims to promote and strengthen micro-finance systems, providing revolving funds to the financially underprivileged.
- Focuses on creating accessible financial solutions for the poor, fostering economic empowerment.

At Forum Kenya Development Foundation, we believe that sustainable development can only be achieved by empowering communities to take charge of their own development. We partner with community-based organizations, as well as women, men, and youth groups to achieve this goal.

Our approach is designed to achieve sustainable, inclusive, and resilient community development through empowerment, collaboration, and innovation.

Community Development

The Strength of People
The Power of Community

ABOUT US

- Forum Kenya Development Foundation is a registered Non-Governmental Organization registered in the Republic of Kenya to assist in utilizing local resources to alleviate endemic poverty.

OUR MISSION

Our mission is to enhance the spirit of self-reliance in communities.

- This involves empowering community members to take control of their economic and social welfare, encouraging independence and sustainable development.
- Focused on creating environments where communities can thrive independently.
- Encourages the development of skills and resources that enable self-sufficiency.

“**Forum Kenya Development Foundation** assists the community by empowering its members to identify and utilize the locally available resources towards relieving endemic poverty in Kenya.”

OUR VISION

Our vision is to alleviate poverty in communities through the exploitation of available local resources.

- It implies a strategic approach to utilizing what is readily available in the community for economic and social upliftment.
- Aims to create long-term solutions to poverty by harnessing and maximizing local potential.

OUR OBJECTIVES

To Relieve Poverty and Improve Agricultural Production.

- Focused on enhancing community agricultural practices to increase productivity and economic stability.
- Combines poverty alleviation with agricultural development as a means to sustainable community growth.

Education on Saving and Investing:

- Aimed at educating beneficiaries about the importance and methods of saving and investing to eradicate poverty.
- Focuses on imparting financial literacy to empower individuals in making informed economic decisions.

Training in Modern Farming Technologies:

- Dedicated to training adult Kenyans in transferring modern farming technologies to communities.
- Enhances agricultural productivity and innovation through the adoption of contemporary techniques.
